 Designed by a speech pathologist for the promotion of pre-literacy skills and clear speech.

This set of cards is the PERFECT way to introduce young learners to the alphabet using 29 fun characters (the Sound Buddies). The focus of learning is on the SOUND that each letter makes and to help with this, each Sound Buddy's mouth shows the mouthshape needed to make their target sound. Children "meet" each character and explore what their mouths need to do in order to make their sound. It's all about SOUND PLAY!

For example, Furry Fox has been chasing chickens. He tucks his bottom lip under his top teeth and blows a feather off his chin, making a long soft sound, - /fffffffff/.

Children learn to link the letters of the alphabet to the sounds that they most commonly make.

(Note: You receive cards for all the letters of the alphabet plus ch, sh and th.)

BUT WAIT... there's more! Each pack comes with a link to **LOADS OF BONUS** online resources to download (flashcards, start sound pictures, sorting activities, letter recognition sheets, developmental norms and tips for what to do if a child can't make the sound).

The cards are A5 size. On the back is a quick "story" and tips for making the sound. They make a GREAT wall frieze.

**Although some cards are slightly different, the cards complement any of the Speech Sound Set resources from Pelican Talk and the app, Speech Sounds for Kids.*

All our cards are printed on high quality 100% recycled card.
