

silly

It can be fun to feel **silly**. When we feel silly, we are in a good mood and it can put others in a good mood too! Sometimes it can make others laugh.

Look below at all these people being silly. They are all feeling silly!

Is it just kids who feel silly? Do you know any people who are often silly?

Discuss

1) If we are in a silly mood and our friend isn't feeling the same way, they might get annoyed by us. What might they say? What should you do?

2) It's not a good idea to act silly in some situations. What are some good places and times to be silly? What are some not-so-good places and times to be silly?
